

MANY ARRESTS DUE WHEN WAR STARTS

Taking of Spies to Be Accompanied by Dismissal of Disloyal U. S. Employees.

Months of work by the Secret Service and the Department of Justice agents culminate today with the adoption of the war resolution by Congress.

In addition to the arrest for interference of scores of spies and overzealous sympathizers, will come the summary dismissal of numerous employees in the Government service, whose pro-German activities and suspicious acts for several months past are known to Administration authorities.

Startling Revelations Due. Startling announcements showing how cunningly the German espionage system has been spread throughout the Government service are expected to follow within a few days, with a view to revealing to the American public the extent of Teutonic treachery.

Positive proof of the existence of German spies and sympathizers in the various departments is before President Wilson, and this evidence was the basis for his reference to the fact in his war address to Congress. Already a number of these individuals have been removed, but the departments will be swept clean after Congress has finally declared that an actual state of war exists.

Covered Entire Country. Operations of the Secret Service men and Department of Justice agents have covered the entire country, and even the insular possessions and Latin America in an indirect way.

Some of the plots and intrigues laid bare are the interception of the Zimmerman-von Eckhardt note that aimed to entomb the United States in war with Mexico and Japan; numerous conspiracies to destroy munition plants and munition-carrying ships; passport frauds involving espionage activities in Europe; expenditure of large sums of money to incite anti-American sentiment in South and Central America; powerful lobbies and propaganda to influence Congress in pro-German action and legislation; employment of spies in Government departments; and the furnishing of huge sums to promote "peaceism."

TO SACRIFICE WHISKERS

Illinois Senator Is Told of Unwritten Law of the Army.

Senator J. Hamilton Lewis faces the supreme sacrifice of the war since his announcement that he will offer his services as a soldier to his country.

If the Senator goes to the front he will sacrifice not only his luxurious surroundings in the Senate, but he will face the necessity of being shorn of the most famous set of whiskers in the two hemispheres.

An unwritten law of the army provides that officers must "go clean." Senator Lewis heard of the menacing threat against his whiskers when he paid a call at the State, War, and Navy building for conference with officials. He indicated that he was prepared to put up as hard a fight against the barber as he will against the Germans.

"I went through the Spanish war wearing my beard," Senator Lewis said. He admitted, though, that it had been trimmed.

Senator Lewis, a member of Congress from Washington in 1898, and the lieutenant colonel of a Washington regiment, went to the front with his command.

"Some of my friends on the Hill tell me I ought to shave as a matter of self-preservation," the Senator said. "They believe I would make a flaming target for the enemy bullets."

But, shaved or unshaved, Senator Lewis is determined to "do his bit." After he has done his part in aiding the Senate to put through war preparations he will be ready, he assured officials, to offer his services to the Government.

EX-CONGRESSMAN PLEAS

Seeks to Avoid Trial for Fomenting Strikes.

NEW YORK, April 6.—Former Congressman H. Robert Fowler and Henry B. Martin, indicted with former Congressman Frank Buchanan, Franz Rintelen, a German agent; David Lamar, and others on charges of fomenting strikes in munition plants and on steamship piers, entered pleas in abatement in the Federal District Court here yesterday. A trial before a jury to determine the validity of the indictment was set for next week.

The defendants, who are alleged to have violated the Sherman law while acting in the guise of Labor's National Peace Council, claim that the Federal authorities violated their constitutional rights by invading their offices in Washington and seizing certain papers and documents that later were used against the defendants.

They also assert that the grand jury which indicted them was improperly impaneled, because "instead of having among its membership men engaged in farming pursuits, it was composed of men drawn from the metropolitan district wherein various large concerns engaged, interested, and concerned in the traffic of munitions of war are located."

The names of the members of the House who will endorse the gift to the Russians are being withheld temporarily. In the Senate it is said Senator William M. Calder, of New York, is heartily in favor of the act as a measure for prosecuting the war.

MANUAL STUDENTS ORGANIZE COMPANY

McKinley School Youths Already Have Enrolled 140 Members.

To "do their bit" students of the McKinley Manual Training School are forming a company of 140 boys each more than seventeen years old. They will begin training Tuesday. Only boys who have the consent of their parents will be enlisted.

Sigmund Sachs is sponsor for the company. Plans are being completed to get uniforms and guns and the assistance of Lieut. Norman B. Briscoe, U. S. A., cadet instructor.

Only those boys in the school who have had one year's cadet experience are eligible for membership, thus assuring a foundation for intensive military training.

At a meeting of seventy-five boys the nucleus for the complete organization, the following officers were elected: Sigmund Sachs, captain; Charles Burner, first lieutenant; and Edward French, second lieutenant. All the officers have had some experience in the cadet corps and it is believed can be of material assistance in whipping the boys into shape and "brushing them up" on the rudiments.

WADE H. COOPER, Pres.

T. R. PRESSES CLAIM TO DIRECT DIVISION

Would Serve in Corps Commanded by "First Class" Regular General.

NEW YORK, April 6.—Col. Theodore Roosevelt yesterday briefly stated his case as an applicant for permission to organize an expeditionary force of fighting Americans for service with the allies at the front.

In very few words—verifying news published a few weeks ago—the Colonel disavowed any wish or purpose to take chief command of the proposed expeditionary force; and, advocating a full army corps for service abroad, pressed his claim as "an ex-President of the United States, of previous military experience," for the command of a division in this corps.

According to the Colonel, all that he asks is permission to raise his division and then to lead it to the battle line under a corps commander selected from the regular service. The Colonel's only suggestion as to the corps commander is that he shall be "one of our first class regular major generals."

The Colonel met reporters in the parlor of his suite at the Hotel Langdon late in the day. His attention was called to certain Washington dispatches which intimated that for him to raise a division of troops would, in the estimation of military experts, establish an unwelcome precedent. Colonel Roosevelt then dictated this statement:

"I believe that our people realize that the system of universal military service is the only effective and the only democratic system. I, of course, most earnestly hope for the passage of legislation establishing the principle of universal and obligatory military service and training."

"In addition I believe that the American people desire that in the immediate future we send abroad an expeditionary force."

"They believe that we owe it to ourselves as to the national honor to send a fighting force of at least an army corps, under the American flag, to the front at the earliest moment."

TEMPLE SISTERHOOD TO JOIN RED CROSS

Issues Call for Formation of a Chapter, and Pledges Its Loyalty.

The Temple Sisterhood of the City of Washington is to form a Red Cross chapter, a meeting for that purpose having been called for next Wednesday evening in the vestry room at the Eighth Street Temple.

This action was the direct outcome of a meeting of the sisterhood which was addressed by Miss Mabel T. Boardman, of the American Red Cross. The sisterhood also adopted resolutions asking Congress to grant the request made of it by President Wilson, pledging the support of the local body and asking that other sisterhoods take like action.

Mrs. Abram Simon, president of the organization, also is president of the national sisterhood, and largely for that reason the position of the Washington sisterhood is expected to have wide influence. The resolution adopted last night follows:

"Whereas the President of the United States in an address to a joint session of Congress on Monday, April 2, declared that the Imperial Government of Germany by its acts is waging war on the people of the United States of America and asks that as Commander-in-Chief of the Navy he be granted such power as to him seems necessary to defend our dearly bought rights and liberties, therefore be it

"Resolved, that the Temple Sisterhood of the City of Washington as an organization of American women unqualifiedly endorses the President's just request and call on our legislative service to furnish all necessary aid, men, material and finances, to bring the war thus thrust upon us to a successful conclusion, and

"Resolved, that we pledge our support and our aid in whatever field of action we may be helpful, and

"Resolved, that we call on other sisterhoods to take like action."

Nujol For Constipation

"I Can't Taste It At All, Mother"

Nujol neither looks, tastes, nor acts like the "medicine" the child has been accustomed to. In fact, Nujol isn't medicine at all in the ordinary sense.

Nujol, unlike drugs or physics, is not absorbed by the system, and hence cannot form a habit. It acts as a mechanical lubricant, keeping the intestinal contents soft, soothing the inflamed mucous membranes and so promoting normal movements.

For children, particularly, no other remedy is at once so harmless and so effective.

As Nujol is not a physic but a lubricant, it does not gripe or upset the system. Being tasteless, it is not unpleasant to take.

The Standard Oil Company (New Jersey) has used its world-wide resources in producing Nujol and its reputation is behind the product.

Nujol is the only remedy for constipation we manufacture. The genuine sold only in pint bottles bearing Nujol trade-mark. All bottles filled at our Nujol plant, absolutely modern and sanitary.
